

Strathmore Artist papers, boards and pads

The preferred choice of professional artists, art teachers and knowing amateurs for more than half a century, Strathmore Artist Papers and Boards offer a wide choice of surfaces and working characteristics, for a broad range of media and techniques. All are made to exacting standards in Strathmore's own mills; and their quality is consistent, wherever and whenever they are sold. Strathmore is the only American paper company which makes artist papers and markets them under its own trademark.

Strathmore 400 SERIES Drawing

An extremely versatile drawing paper receptive to a wide range of techniques. It supports and enhances crayon, pencil, pen and ink, charcoal, washes, paints and markers, and is particularly suitable for delicate line work, which reproduces with exceptional fidelity from its non-reflective but extremely uniform finish. The versatility of this line paper is further extended by the wide range of sizes in which it is offered. The regular surface is available in pads.
